# BioTech focus

ADDRESSING THE NEEDS OF EMERGING BIO-PHARM COMPANIES AND UNMET EQUIPMENT NEEDS.

*As a progressive company we continually try to reach out to our industry with state of the art equipment solutions that bring innovative equipment to our customers fingertips.*

## Helping you achieve your equipment goals.

Lean is now the talk of the town. What are some of the ideas behind creating Lean equipment? Will they work For my facility? We have created a simple and elegant cabinet that will improve your ability to:

- Sort
- Set in order
- Shine
- Standardize
- Sustain

The new SEC Series cabinets are designed with 5S in mind. Sorting and setting your parts in order is a breeze with the removable poly storage bins that come standard with the purchase of your cabinet. Cleaning is never a problem with the stainless steel materials used for construction and the clean room standard for fabrication used to develop your cabinet. All surfaces are smooth and free from collecting debris and retaining water.

### SIZES & MODELS NOW AVAILABLE

MODEL	PRICE	L	X	H	X	D
SEV-36	\$6490.00	36"		76"		24"
SEV-48	\$6890.00	48"		76"		24"
SEV-60	\$7280.00	60"		76"		24"

## STANDARD FEATURES

A set of solid removable and interchangeable safety glass doors allow a full view of product on-hand and to sustain a steady and accurate parts inventory. The shelves are reversible to allow for a flat surface on one side or a pitched shelf with an integral seismic lip on the other. Each cabinet is constructed of 16 Ga. T-304 high grade materials from the sheet metal body, heavy duty locking caster with poly wheels to the robust heavy duty lift of hinges.
